

## Incentive Bargaining and Corporate Governance: Comparative Enterprise Law among the US, Japan, and China

This international conference will discuss how law matters to corporate governance and business practice, together with the markets and social norms of each jurisdiction, by focusing on the fact that the United States, Japan, and China achieve a certain economic success by doing totally different ways. Panel discussions by leading experts in each country and on each subject matter will not only provide a clue to think about the legal system that will contribute to stimulating business and the economy, but also be helpful for people who practice in international business law.
